EFFLUENT TREATMENT SYSTEM

DECOLORIZATION SYSTEM

for Treated Wastewater

DECOLORIZATION System Series is ideal for industries having existing treatment systems that produces treated water with colour and odor.

DECOLORIZATION System is a modular system by design effectively removing the treated effluent water of its odour and color in addition to Disinfecting thus providing a better quality of treated wastewater.

RT ECO DECOLORIZATION System is designed for decolorization of Treated wastewater.

UNIQUE FEATURES

- ▶ Modular construction
- ▶ Plug & Play system
- ▶ Single power supply input point
- ▶ 100 % Disinfected Treated water
- ▶ No Chemicals Required
- ▶ Minimal foot print

NOBLE ECO SYSTEMS offers a complete range of Electrochemical Products and services as stockist and system integrators, with more than 30 years of Excellence in Electrochemical technology world over offering world class technology.

DECOLORIZATION System is a compact, eco-friendly, Electrochemical based technology.

APPLICATIONS :

- * **DECOLORIZATION of Treated Wastewater AZO Dyes**
- * **DECOLORIZATION of Treated Wastewater Leachate**
- * **DECOLORIZATION of Treated Wastewater Sewage**
- * **DECOLORIZATION of Treated Wastewater POME**
- * **DECOLORIZATION of Treated Wastewater Food Dyes**
- * **DECOLORIZATION of Treated Wastewater for MALLS**
- * **DECOLORIZATION of Treated Wastewater for Hospitals**
- * **DECOLORIZATION of Treated Wastewater for Star Hotels**
- * **DECOLORIZATION of Treated Wastewater for IT Companies**
- * **DECOLORIZATION of Treated Wastewater for Textiles Industries**
